Game background:

In the world of frogs, the oldest one: Frog King lost his treasure — time-controlling ball, which makes him weak. He comes to Benton-Forest, wants to get his treasure back. Some treasure hunters heard about this and came to Benton-Forest together to snatch the ball. Treasure hunters and Frog King teleport to two different locations of the forest. But the forest only has one exit — the rift at the center of the forest. If the Frog King finds the ball first, he will recover all of his power and destroy the treasure hunters by absorbing all of their time. Can treasure hunters find the time-controlling ball and grab it successfully?
